## TWO GREAT RESORTS ON THE MAIN FIJI ISLAND - VITI LEVU

Fiji is known as the Soft Coral Capital of the World, and a dive in the Bligh water region is all that is needed to confirm this title. Here the currents nurture dense growths of alcyonaria soft corals, creating an undulating tapestry of life in colors ranging from ice blues and purples to vivid yellows, pastel pink and intense reds. These waters are not only colourful but also rich in marine life. Fijian waters support more than 1,500 species of fish, several thousand varieties of unique invertebrates and 400 types of coral. Divers and snorkelers will discover an intriguing and diverse underwater environment that delivers everything from critter-rich bays and sun-dappled shallow reefs to precipitous walls, fish-laden pinnacles, shark-filled lagoons, shadowed grottoes, and current-swept channels. The Fijian Islands themselves are steeped in natural scenic beauty, and home to some of the friendliest people in the world.
