## ONCE IN A LIFETIME ADVENTURE TO THE MAGICAL GALAPAGOS

Climb aboard the incredible MV Galapagos Sky (a luxury Liveboard yacht, sure to please any diver) and experience one of the last natural bastions of marine life for divers in style. Marvel at a unique world-class diving location where wonder, excitement, thrills and amazement all come together in an experience you'll never forget!

Sailing out of San Cristobal, your excitement begins with sea lions, pelicans and marine iguanas dotting the shoreline. Day one will have you in the water, usually with several playful sea lions and sting rays for a brief checkout dive before heading to the first main dive site of this unforgettable journey. On past trips playful sea lions accompanied the dive, with spotted eagle rays, sea turtles and dense schools of fish nearby... And that's just the beginning.

An overnight cruise and 2 days at isolated Wolfe Island will put you in the water with schooling hammerheads, Galapagos sharks, rays, dolphins, sea lions, free-swimming morays and more. If we're lucky (as we have been in the past), we'll experience the thrill of watching a whale shark appear out of the distance in all of its glory among the hammerheads. Just wait for the night dive!

With several majestic stops on the return cruise you may see marine iguanas, horn sharks, Mola mola (Ocean Sunfish) and other rarities.
